SHRADDHA PATEL

Front End Developer

A dedicated and detail-oriented front-end developer seeking for an opportunity in a dynamic company where I can utilize my skills in HTML, CSS, JavaScript, and other front-end technologies to create responsive and user-friendly web applications. With a strong desire to learn, I aim to eventually transition into a full-stack developer role, combining my front-end expertise with back-end development knowledge to build robust and scalable web applications.

PROJECT

E-commerce Web App (Next.js & TypeScript)
Built a responsive e-commerce platform using Next.js, Tailwind CSS, and FakeStoreAPI, featuring seamless product listings and an add-to-cart workflow.

JWT-Authenticated Pokémon Explorer (React)
Built a secure React application featuring a local backend with JWT-based login, displaying Pokémon cards with search and load-more functionality.

Employee Management System (React)
Developed a React-based employee management system with role-based authentication, allowing admins to assign tasks and manage users while employees can view their assigned tasks.

Shopping Cart Application
Develop a Shopping Cart Application using React.js, HTML, and CSS, featuring secure login authentication, role-based access control, and dynamic, conditional navigation. The app will include a comprehensive product listing, allowing users to seamlessly add items to their shopping cart.
